COLLEGE OF ENGINEERING

Silver Screen Showdown

 16th March 2026

 VC Room

 3:00 PM

The NHCE Drama Club successfully organized **Silver Screen Showdown**, a movie-themed trivia and entertainment event that brought together cinema enthusiasts from across the college. The event received an overwhelming response, with more than 150 participants taking part and creating an energetic and competitive atmosphere throughout the program.

The event consisted of three engaging rounds designed to test participants' knowledge of films, iconic scenes, dialogues, actors, and popular cinema moments. The first round, *Reel Hunt*, challenged participants with movie-related clues and identification tasks on a treasure hunt throughout campus. This was followed by *Scene it or Screen it*, where teams analyzed and recognized famous movie scenes and references. The final *Rapid Fire* round added excitement and intensity as participants answered a series of quick movie-based questions under time pressure.

Participants displayed impressive enthusiasm, teamwork, and cinematic knowledge throughout the competition. The audience remained actively engaged, cheering for teams and enjoying the interactive nature of the event. The lively atmosphere and strong participation contributed greatly to the success of the program.

Silver Screen Showdown successfully created a fun and memorable experience for students while celebrating the shared love for cinema and entertainment. The event also encouraged interaction, healthy competition, and active participation among students from different departments.
