

EVENT NAME: SLOW CYCLING

DATE: 17th November, 2022

NO. OF PARTICIPANTS: 25

We from the fitness club have collaborated with Leo club to do the event “SLOW CYCLING”. This event was an interesting and fun event where in the participants are supposed to ride the cycle in the given track arranged by the club members. The participants who ride the cycle for longer time without putting his/her leg on the ground, wins. The cycles were provided by the club members. There was a total of 25 participants with a good competition.

This event ended up having five rounds and we have three winners. This event started at 3pm in the afternoon and ended at 4pm. Students participated with full enthusiasm and we had a good crowd for spectators. The track was setup in front of tango which is a very short track long enough for this event to happen.

We thank our principal sir, Anitha maam, teachers, all our friends and club members for giving us permissions and for supporting us throughout the event.
