**NUMBER OF PARTICIPANTS:** 12

On November 24, 2025, the Literary Club of NHCE organized Colours of Curiosity, a creative cover-design competition curated to blend imagination, aesthetics, and literary interpretation. Nirvana served as the ideal venue, creating an artistic and reflective atmosphere for participants to explore their visual storytelling abilities.

The objective of this event was to encourage participants to think beyond traditional writing and visually express narrative essence through cover design. The competition challenged students to reimagine existing book covers or conceptualize original works by combining symbolism, typography, and artistic perspective.

Participants showcased diverse design approaches, ranging from digital illustration and hand-drawn artwork to minimalism and mixed-media concepts. Each entry reflected thoughtful interpretation of theme, genre, and audience. Genres represented included fiction, fantasy, philosophy, mystery, and contemporary literature, demonstrating an expansive creative range.

The event commenced at 3 PM with an introductory briefing on evaluation criteria, followed by the design and presentation sessions. Participants articulated the inspirations behind their designs, creating an engaging exchange of ideas. In a unique highlight of the event, the submitted artworks were reviewed and appreciated by the guest author himself, adding immense value and excitement for the participants.

The judging process focused on originality, thematic alignment, design clarity, and visual execution. Members of the Literary Club coordinated the event and ensured seamless transitions between stages, fostering an atmosphere of creativity and artistic enthusiasm.

Colours of Curiosity concluded with the announcement of winners and the distribution of certificates to all participants in acknowledgment of their creativity and effort. The event was well-received and stood as a testament to the club's initiative in cultivating both artistic and literary expression.
