b) Water ________ (boil) at 100 degree celsius. (with an appropriate tense form of the verb)

5) Punctuate the following:

while I was at his house john asked me if I wanted anything to eat

VI. Read the following passage carefully and answer the questions based on it.

The country in the world with perhaps the most malls, and also some of the biggest malls, is America. Edina, Minnesota is the site of the first modern mall. It’s still standing, and it’s called Southdale Center. This was the first mall to offer a completely enclosed retail shopping experience. Malls up to that point in time were modeled after the traditional European arcade. An arcade is a semi-covered walkway with shops on both sides. Examples of these arcades can be found today in Italy and Germany.

Southdale Center was actually going to be a new version of the traditional European arcade, surrounded by apartments, schools and facilities that provide
medial and emergency services. But then the plans changed completely. The
developer of the shopping center, Dayton Company, and its designer and
architect, Victor Gruen, saw a much bigger opportunity. They ultimately decided
that Southdale Center was going to be different; it was going to be inside a big
building. It was going to be on more than one level and have a town square in the
middle under a skylight. The mall opened in 1956, and it was the first fully
enclosed climate-controlled retail space with multiple shops. Although the building
was enclosed, there was some daylight coming through glass panels that were
built into the roof. On top of that, there was electric lighting fitted throughout the
mall. This was supposed to encourage these shoppers to stay longer and buy
more things.

The developing team also wanted to create a place with all the services people
could possibly need all in one place. From grocery stores, to a postal office, to
various department stores – they were all put under one roof. It even ended up
including fishponds, trees, a cage with birds, balconies with hanging plants, and
a small zoo! Southdale Center was received with a lot of excitement by the
American public. On opening day of the mall, 40,000 people came to see it and
shop. People came from cities close by, but also from far away, to visit a
shopping mall they had never experience before.

1) What does the author mainly describe in the passage? (5x1=5)
   a) The design philosophy of Victor Gruen
   b) The creation of Southdale Center
   c) Famous arcades of Italy and Germany
   d) The opening day of Southdale Center

2) Mention one feature that is included in the design of Southdale Center to
   encourage the shoppers to stay longer.

   encourage the shoppers to stay longer.
3) What is an arcade?

4) ___________________________ is the site of the first Modern mall.

5) Mention any two services provided by Southdale Center to the American public.

VII. a) Using the hints given below write a narrative paragraph of about **80-100** words.

OR

b) Using the hints given below write a descriptive paragraph of about **80-100** words.

VIII. Make notes on the following passage by choosing either linear or a diagrammatic format.

Wolves, jackals and foxes all belong to one family, the family of dogs. They are found on all the continents except Antarctica. They live in the forests and on the steppes, in the mountains and on the plains in the Tundra and in the desert. The legs of the animals in this family are long and well shaped. The paws have strong, blunt claws. All the animals run fast, some at a speed of 65 kilometers an hour. The hair is thick and of various shades of grey or red. The African wild dog has black, white and yellow spots. This is the only wild animal that has hair
of three colors. The largest and strongest animal in the dog family is the wolf. It can run so fast with a goat or sheep on its shoulder that you can hardly catch up with it even on a good race horse. It is very true to say that the wolf lives by its feet; sometimes it runs 60 kilometers a day in search of prey. And not always does it find it, even running this distance. It is not easy for an animal in the wild to find food. For this reason, when a wolf makes a good kill, it gorges itself. It can crush large bones easily.

IX. Do as directed:

a) Introduce your mother to your class teacher.

b) Write a set of instructions that a doctor would give on how to give first aid to a person who has injured himself by falling down. (five or six sentences)

c) Give directions to your friend on how to get from Point A to Point B.
