About Conference

The New Horizon College of Engineering in India hosts the International Conference on Multidisciplinary Research in Technology and Management sponsored by IEEE and technical co-sponsored by IEEE Bangalore Section. The MRTM 2023 will be held for the first time on September 22nd and 23rd, 2023. Plenary talks, workshops, and invited papers by distinguished researchers and technologists, as well as contributed papers from academics and industry professionals, will be featured at the conference. The MRTM 2023 is a global platform for technologists, researchers, business leaders, and industry leaders to share their perspectives on emerging technologies and newer solutions that can guide and lead to a better tomorrow. The papers can only be presented in Hybrid (In-person and Virtual) mode by the authors. All the accepted and presented papers will be published in IEEE XPLORE Digital Library (Scopus Indexed)

About NHCE

New Horizon College of Engineering (NHCE), established in 2001, a unit of the New Horizon Educational and Cultural Trust, offers quality education in both Engineering and Management programs. The college is permanently affiliated to Visvesvaraya Technological University (VTU), approved by the All India Council for Technical Education (AICTE), New Delhi. NHCE has the prestigious accreditation of NBA and NAAC with 'A' Grade and NIRF ranking. Our college has also reached one more milestone by achieving Autonomous Status from the Academic Year 2015-16 by VTU and Government of Karnataka.

Objectives

The International Conference brings together researchers, practitioners and students to discuss and share their experiences, new ideas and research results on all aspects (theory, applications and tools) of Multidisciplinary Engineering, Research and Management. The Conference aims to bring together researchers from multidisciplinary backgrounds to emphasize dissemination of ongoing research in the fields of technology and management.

Preamble

Communication, Networking and Broadcast Technologies, Components, Circuits, Devices and Systems, Computing and Processing, Engineering Profession, General Topics for Engineers, Robotics and Control Systems, Signal Processing and Analysis, Power, Energy and Industry Applications, Transportation.

Call for Papers

Original, unpublished papers in the following areas but not limited to, are invited:

Track 1: Smart Grid Technologies

Track 2: Energy Management & Green Engineering

Track 3: Pioneer Engineering with Advanced Technologies

Track 4: Automation and Manufacturing Technologies

Track 5: Management & Emerging Technologies

Track 6: Intelligent and Secure Communication

Track 7: Information Theory

Track 8: Applied Sciences & others
