REPORT ON WEBINAR

Date: 23/10/2020

With the blessings of NHEI Management, having constant encouragements of our respected Chairman Dr. Mohan Manghnani, and Principal Dr. Manjunatha a WEBINAR is conducted in order to enhance online learning skills of our faculties and students, the department of Civil Engineering hosted on the following schedule and the topic:

Topic: **“HOW TO WRITE A RESEARCH PROPOSAL- A REVIEW AND APPROACH”**

Date: 23rd October, 2020

Resource person: Dr. Anil Kumar Sharma, PhD-IISC, Bengaluru, Assistant Professor-NIT-Patna

Time: 02:00 PM to 3:30 PM

Description:

Writing the proposal of a research work in the present era is a challenging task due to the constantly evolving trends in the qualitative research design and the need to incorporate medical advances into the methodology. The proposal is a detailed plan or 'blueprint' for the intended study, and once it is completed, the research project should flow smoothly. Even today, many of the proposals at post-graduate evaluation committees and application proposals for funding are substandard. A search was conducted with keywords such as research proposal, writing proposal and qualitative using search engines, namely, PubMed and Google Scholar, and an attempt has been made to provide broad guidelines for writing a scientifically appropriate research proposal.

Program: For this Webinar, registration link using Google meet ID and password was created. The link was circulated among registered participants, faculties and students of Civil Engineering, and faculties of other departments. More than 95 participants both Teaching Faculty Members and Students have participated. At the beginning, Dr. P.S. Niranjana HOD gave a welcome address to the participants and after the presentation Dr. Vinay Kumar., Associated professor, CED, delivered the vote of thanks.

Anil Sharma is presenting

Approaching the Proposal

Always remember:

- Your case will be read by one or two experts in your field but others in the judgement panel won't be experts. *You must write for their benefit too.*
- Ask lots of people to help you improve your proposal.
- Make sure the first page acts as a *stand-alone* summary of the entire proposal.
