Date: February 7th, 2018

Seminar Report

A seminar was organized on 06 February 18 on "Social values and Social Responsibilities" by Sri Sathya Sai Hospital Seva Wing. The honorable speakers were Dr. Amey Deshpande from Prashanthi Nilayam Puttaparthi who enlightened students on "Social values" and this was followed by a talk on "Humanity of Positive Energy- HOPE" by Mr. Sundar Anantharaman who highlighted students on "Social Responsibilities".

All the students of 4th semester and faculty members attended the seminar. The program started at 3.00 PM and ended at 5.00 PM.

The High lights of the seminar were:

- Social value as a concept has additional implications beyond those of measuring the outcomes of a particular project or organization. In theory, it is an attempt to measure what is 'valued', and therefore, should be prioritized by everybody. There seems to be recognition that value is subjective and requires discussion and agreement by everybody on what is to be valued in particular circumstances
- Social Value is the relative importance of changes that occur to everybody as a result of an activity.
- The regard that something is held to deserve; the importance, worth, or usefulness of something... .. Value only exists by comparison, it is, unfortunately relative. Value is a way of thinking about relative importance; the relative worth of different things.
- Values are standards of social behavior derived from social interaction and accepted as constituent facts of social structure. They are objects that social conditions desire. These are culturally defined goals and involve "sentiments and significance." These consist of "aspirational reference."
- Values are expected to be followed for judging and evaluating social interaction, goals, means, ideas, feelings and the expected conduct. Without such evaluating standard, it would be difficult to judge individual behavior or social action. Values aim to integrate expected individual behavior and social action. It tends to forestall tension and as such have tension management role.
- Social responsibility is an ethical framework and suggests that an entity, be it an organization or individual, has an obligation to act for the benefit of society at large. Social responsibility is a duty every individual has to perform so as to maintain a balance between the economy and the ecosystems.
- Social responsibility means sustaining the equilibrium between the two. It pertains not only to business organizations but also to everyone whose any action impacts the environment.
