History of IGS Bengaluru Chapter

Indian Geotechnical Society Bengaluru Chapter has a long history of having started as the Mysore Centre of Soil Mechanics and Foundation Engineering at UVCE, Bengaluru University in 1964. With advent of time, the above Centre was renamed as Karnataka Geotechnical Centre (KGC) Bengaluru and became a local chapter of Indian Geotechnical Society (IGS). The Chapter earned great recognition in the field of Geotechnical Engineering nurtured by the outstanding commitment to the society and profession by several of its esteemed members. Several members of the Chapter have served the national body (IGS) as presidents and executive committee members and delivered IGS annual lectures.

About Workshop

Geotechnical Engineering is the first and most important aspect of any Infra project and urban development. This workshop will focus on Geotechnical Engineering principles and their applications in various needs. This workshop will help participants better utilize the services of Geotechnical professionals and when and where they should be involved. This workshop will be interactive and rely on real life case studies and examples. This workshop is intended to reach out to the designers, practicing engineers and students and to fulfill the current day requirements; Civil Engineers need awareness and knowledge of the advancements made in the field of Geotechnical Engineering. This workshop provides a detailed introduction to the new technologies in Geotechnical Engineering.
