NEW HORIZON COLLEGE OF ENGINEERING

DEPARTMENT OF INFORMATION SCIENCE AND ENGINEERING

Report on Technical Event "Code - Lingus"

Date:2-6-2018 **Time: 10:00AM – 12:00 PM**

The Department of Information Science and Engineering in association with iSWET(G) club conducted a Technical Event "CODE –LINGUS on 2nd June, 2018.More than 150 students from various department of New Horizon College of Engineering were enrolled to the technical event who actively participated in the contest. On the day, the event started with a preliminary round which was the 'Aptitude'. Further the event progressed to the next rounds.

So out of the 70 teams who participated, for the second round only 19 teams were allowed . The second round was the Pattern Matching round , where the contestants were presented with patterns of numbers and they had to derive the appropriate formula that can generate the pattern. After the completion of the second round a total of 5 teams were selected and were allowed to participate in the 3rd round which was the Hackathon. In this round the teams was presented with five pre-compiled programs which they had to run .The programs took inputs from user and churned out outputs, using those outputs the contestants had to figure out what is happening in the program and come up with their own version of the program which does the same.

The Department of Information Science & Engineering and i-SWET(g) extends sincere gratitude to the honorable Chairman, Dr. Mohan Manghnani, for kindly acceding to the request and allow to conduct the event. The department also extends very special thanks to the Principal, Dr. Manjunatha, for the logistic support and encouragement to execute the event. The event wouldn't have been successful without the constant support and guidance of Dr. Jitendranatha Mungara, Professor & Head, Department of Information Science & Engineering.

Winners of the contest.

Coders, hard at coding .

Round one participants

Round 2 participants
