**DEEPTSAV - DEEPAVALI CARNIVAL**

Deepavali is celebrated enthusiastically every year. We celebrate the victory of good over evil and the return of Ram from his 14-year-long exile during this festival. It is known as the 'festival of lights' and instils joy, hope and love in us.

The New Horizon College of Engineering, a prestigious branch of New Horizon institutions, hosted a grand Diwali carnival. The students sang songs and chatted excitedly on the bus to and from the beautifully decorated venue. The carnival rides drew much attention, and there were various stalls for food and games. Students participated enthusiastically in different games and won stuffed toys and other exciting prizes. They also devoured the delicious hot meals served at the stalls. College students set the well-equipped stage on fire with their graceful dance moves and contributed immensely to the memorable experience of the evening. Teachers, as well as students, danced energetically to the beat of the music. Exhausted but delighted, the students had the time of their lives.

A spectacular performance, accompanied by dazzling fireworks, ended the carnival on a high note. We are grateful to the teaching and non-teaching staff of the New Horizon Institution, who worked tirelessly to ensure that the students had a splendid time at the carnival.

Rithushree, 7 C

**ADMISSION NOTICE  
FOR NURSERY & LKG FOR THE SESSION 2023-2024**

Registration forms for admission for the academic year 2023-2024 for NURSERY and LKG will be available on the website from 14<sup>th</sup> October 2022 :  
[www.nhps.in](http://www.nhps.in)

Filled in registration forms to be submitted online on our website along with

- 1) The latest passport size photograph (size less than 100KB in JPEG or PNG format) and
- 2) Scanned copy of birth certificate of the child (PDF format less than 1MB)

Registration fee : ₹ 750/-

**Kindly note:**

- As per NEP directive, the child should have completed 3 years as on 1<sup>st</sup> JUNE 2023 for admission to NURSERY and 4 years as on 1<sup>st</sup> JUNE 2023 for admission to LKG.
- A large number of parents are seeking admission in New Horizon Public School, Indiranagar. We would like to highlight that the number of seats available for the above mentioned classes for 2023-2024 are limited.
- We give priority to the siblings and the alumni of our school.
- Admission interaction schedule will be intimated through E-mail

SPORTS DAY

Annual Sports Day – Hakuna Matata

The importance of sports day in school is what it does for the spirits of camaraderie of the school and community. 17<sup>th</sup> of September was the pre-primary annual sports day. "HAKUNA MATATA" being the core theme, there was a list of animal-themed races for kids which led to hours of fun. It was a beautiful sight to behold on a pleasant morning as the tiny tots entertained the audience with a spectacular interschool relay, display of march past, animal-themed races etc. The winners who made it to the victory stand felt proud of being awarded the medals and appreciation from the chief guest Mr. Tejas Bhandari, our esteemed principal Ms. Anupama Sethi and our honourable Headmistress Ms Ekta Batra.

The parents' races were competitive as ever. But no sports day is complete without the teachers' race and for non-teaching staff. We at NHPS conclude with the famous saying

"WINNERS WIN, WINNERS LOSE BUT WINNERS PLAY"

HAKUNA MATATA

COMMUNITY HELPERS

'Community Helpers' are people who work together to make the community a better place for everyone. Students of Grade 3 decided to take their learning a step further, towards the understanding of the topic "People who help us."

As part of their SST and Life Skills sessions, they made some lovely "Thank you" cards for the support staff with a lot of love and sincerity. It was heart-warming to see the smiles on the faces of all the staff when they unexpectedly received these cards. We believe that seeds of compassion for fellow human beings must be sown in the minds of our little children at a very young age. The concepts of 'Dignity of Labour' and 'Equal respect for all' were very beautifully integrated into this activity, where both the children and the staff were equally happy and excited. We hope it remains a life lesson for the students.

1. WHAT CAN YOU CATCH BUT NEVER THROW?

2. IT BELONGS TO YOU, BUT OTHER PEOPLE USE IT MORE THAN YOU DO. WHAT IS IT?

### HERITAGE TRIP TO DELHI, VRINDAVAN AND JAIPUR

School trips are essential in expanding a student's worldview. They help improve their critical thinking skills and help them learn about the local culture while protecting historical heritage and raising awareness among young children. A greater bond between students and teachers is formed and lifelong memories are made. Educational trips turn students into proactive and experiential learners.

The students of grade 9 went on a heritage trip from the 24th to the 28th of September to Delhi, Vrindavan and Jaipur. They arrived in Delhi at around 7 a.m. and found luxurious buses waiting for them. Upon arriving at the hotel Regeant Grand, we found out that some of us had to share rooms before we left for Rashtrapati Bhavan. We were greeted with pouring rain before we entered the Rashtrapati Bhavan museum, where we saw and learnt about many of the relics that were and still are a part of our country's history. They were able to see portraits of important figures made of words that held the true essence of what they believed.

The students were given the opportunity to engage in a virtual walk with Mahatma Gandhi and watch a mesmerising short film about his life.

The students had a glance at the Parliament House and The Supreme Court before returning to the hotel for lunch, after which they proceeded to visit the Akshardham temple, where the highlights were a very realistic depiction of the phases of life of Swamy Narayan and the boat ride which gave us a deep insight into our cultural heritage. But, the most breathtaking moment of the trip was watching the light and sound show play out in the pouring rain. It was captivating to see the multicoloured lasers and video projections create a beautiful symphony of water and light.

The second day of the trip was welcomed by a visit to the famous India Gate and War Memorial before starting our journey to Vrindavan. The first stop at Vrindavan was the Chandrodaya Mandir, which has plans to become the tallest religious monument in the world, planned by ISKCON Bangalore. Our second place to visit was the Raman Reti, where Krishna used to play in the mud. We had the pleasure of conducting our own game of tug of war, which the girls won.

The next day in Vrindavan was kicked off by another visit to the Chandrodaya Mandir, allowing the students to take in the glory of the deities. Our incredibly hectic day had us travelling in rickshaws to Govardhana Hill, as well as taking a relaxing boat ride down the Yamuna, revelling in its glory as we released lamps into its waters.

On the way to our next stop, some of the students were greeted by rather aggressive monkeys, trying to rob them of their glasses. Managing to reach the Madan Mohan temple unhurt, we had the privilege of learning about its great historical value. Our last place of visit for the day was the Prem Mandir, where we were able to take in its incredible architecture and watch the light show, an amalgamation of colours.

We had an early morning the next day and headed towards our last destination, Jaipur. After checking into the hotel, we set off for the City Palace, which was laid in a unique pattern with wide avenues and had a variety of courtyards, buildings and gardens. The students also had the opportunity to visit the galleries of the museum and learn about the history of the Rajput kings. Advancing towards Jantar Mantar, we were blown away by the sheer accuracy of various astronomical instruments built so long ago. It has now been declared a UNESCO World Heritage site and features the world's largest sundial. We then progressed towards the most awaited site in Jaipur, Chokhi Dhani and saw the true essence of Rajasthani culture through the dancers, magicians and games. It was a pleasure to be able to shop at this cultural and ethnic wonderland. There could be no better way to end our day than a filling meal served to us there by the hospitable and enthusiastic staff. We had a delightful experience tasting various Rajasthani delicacies.

The final day of the trip was rather bittersweet and perhaps some of these feelings were cured by the fulfilling atmosphere of the goshala, where we had a unique experience riding tractors, feeding cows and playing various sports. This was followed by a visit to the impressive Amer Fort, where our somewhat famous tour guide left no detail in describing the beauties and various implements of the palace, carefully crafted and thought over by Jai Singh. The Fort was decorated with a wonderful mix of styles of Hindu and Muslim architecture, including elements like the Diwan-I-Aam and Diwan-I-Khas, highly indicative and inspired by the style of Akbar. We finished off the day with a round of shopping around the City Palace, where we were able to buy several traditional Rajasthani ornaments and clothes.

This trip has instilled some incredible memories in all our heads which I'm sure none of us will ever forget. The experience was mind-blowing and we truly enjoyed it.

### EDUCATIONAL TRIP FOR THE STUDENTS OF GRADE 10

"10<sup>th</sup> grade trip" was a phrase used by every student in my grade for the past 5-6 years. It was quite possibly one of the most awaited moments in the journey of our school life. Naturally, when we heard that it was finally happening, we were on cloud nine. All I could think about was when we are leaving, what are the places we are going to, when can I start packing, etc and this was much to my parents' and teachers' disliking as we had exams right before the trip.

We started our journey with lot of zeal and enthusiasm at 4 am on the 25<sup>th</sup> of September. We gathered at school and managed to say bye to our parents with ease amidst all the ongoing chatter with friends. It was a fun filled drive through the bumpy roads of Bengaluru ( I must admit, hardly it mattered) with singing and dancing which was halted at our first stop, The Ashok. Sight of food reminded that we had the feeling of hunger indeed as we had a delicious breakfast and the teachers had a tough time bringing us back to the buses as all of us had already started clicking pictures.

As LM Montgomery once said 'Nothing is ever really lost to us as long as we remember it' and what better way to remember than the wonderful thing created called a photograph!

We continued our journey. It was yet again a bumpy ride at times but being with our friends made us ignore any discomfort whatsoever! Finally, there we were, at Mangalore! Our hungry stomachs were greeted with an amazing buffet. We checked into our rooms which seemed to give us quite the royal treatment, after a quick refresh we marched to the most awaited moment, the beach! We were all quite bummed because we got there late and the high tides had started to set in. We couldn't enjoy ourselves to the fullest but we did enjoy a beautiful sunset and yet another photo session :) We got to the hotel, had our dinner and spent time just relaxing with our friends. There, our first day was done!

Onto the second day, we started our ride to our second destination, Udupi. We first visited the famous Udupi Sri Krishna temple and had a really nice darshan. Once we were done with that, we were able to squeeze in a museum visit in our schedule. It was a Biology Museum that we visited and I must say that this was one of favorites as the contradiction in the reaction to being there among us was extraordinary! Some of us were absolutely intimidated by the models and specimens displayed and some of us were ridiculously interested and I must add, quite amused by the things we saw! The highlight was an actual human body kept there. The reactions given to that is something that will be etched forever in my mind! After the museum, we headed to our hotel which had a great beach view (we liked the rooms we got in Mangalore better but as I said, when with friends, nothing is uncomfortable).

After we got some rest and freshened up, we headed for a sea walk where we just walked along the beautiful view of the sea, chatting with our friends and teachers, listening to some music. I may sound dramatic here but that entire evening, I felt like I was in a movie. We barged into the beach where we didn't spare an inch of ourselves from getting into the water and of course, we didn't spare capturing every single moment either! As we were walking back to our hotel along the water, on the sand, we saw a beautiful sunset to our left and a miraculous rainbow to our right. As I said, it really was a movie scene. We reached our hotel and all we had time for was to eat and be tired.

On the third day, we quickly got ready and head to Murudeshwar to visit the famous Shiva temple. We were supposed to visit a beach as well but we couldn't because of our time constraint but we weren't too disappointed because that night was something we could not wait for, the DJ Night! Not to brag but we looked like models (even though our teachers might disagree). It was worth the wait. We danced and sang for almost 3 hours straight. Everyone's inner dancer was unlocked. I must add, our teachers joining was the icing on the cake. The cherry on the cake was that we cut a cake for a fellow student and a teacher because their birthdays were coming! It was a great feeling to surprise them! It was a very tiring day but probably one of the best. On the final day, we head back to Bangalore, with a stop at Belur where we had a brilliant tour of the temple.

I have travelled a lot but this was probably one of the most memorable trips ever, filled with memories which will be cherished forever. We learnt, we enjoyed, we danced, we sang, we reminisced, we saw the much more fun side of our teachers which I absolutely loved and we realized that this was actually our last year. One of the most important chapters of our life was closing, we learnt to cherish the moment. I have to say, our school did a wonderful job organizing this trip and hats off to our teachers in charge who made this entire trip 100% possible and fun!

Sandhya Ramesh, 10 B

**RELIGION, A REAL PERSPECTIVE! - PART 2**

Let us have an even better understanding of how the principle of all religions is the same, but details vary.

As an example, let us take different dictionaries. Webster dictionaries include a 17-volume series, pocket dictionaries, medical and technical dictionaries, and so on. The pocket dictionary, meant to be carried in a pocket, is for immediate reference, for about 2,000-3,000 words, but the 17-volume series has much more information. The dictionaries manufactured by the same company differ in their purpose and usage. A person who understands the essence and has complete details can expertly apply the knowledge according to the time, place and circumstance.

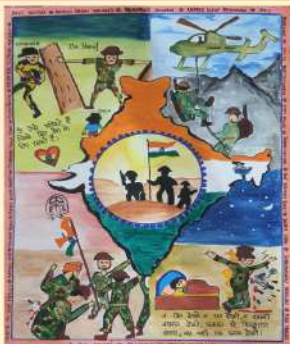

The problem today is that few have accessed the knowledge scientifically or systematically. If a person says, "I have read all the medical books in the library, so I am a doctor. I know everything". Can this be accepted? No. He obtains a medical degree from a recognised university by putting in effort and understanding the subject, explained by authorised teachers. Similarly, we must present knowledge of religion accurately, according to the time, place and circumstance.

The Vedas are an ancient source of knowledge which contain everything under the sun. If you read the Vedic literature, some chapters and cantos explain the detailed creation of the world – from the subtlest point to the grossest point – the formation of ether before fire, followed by the formation of water and then the earth. This description in the Vedas is unimaginable and removes all doubts regarding the creation of the universe.

As scriptures are the foundation of religion, the religion that follows it with complete knowledge brings transformation of the heart, peace and complete satisfaction of the soul.

Values Plus team

**YOUNG ACHIEVERS**

It is heartening to share that one of our students Charvi Sahni of Grade V got the consolation prize in the All-India Art Competition organised by Honourpoint, a memorial for Indian Soldiers. The competition was held on Kargil Diwas where thousands of schools participate. The theme was "Rang De Veer".

It's a big achievement looking at the volume of participation. She secured a cash award of Rs 2100/-, a Certificate of Excellence and books. We are proud of Charvi.

Congratulations to Charvi on this exceptional achievement. We wish her good luck in all her future endeavours!

Srihari of grade 10D secured a silver medal in the 500 metres and a bronze medal in the 3K Road Roller Skating competition conducted by the CISCE, New Delhi. We are extremely proud of Srihari's achievement and wish him good luck in his future endeavours. Congratulations to Srihari!!!

Samanth Naidu of 4C participated in the State level Under13 open chess championship 2022 held in Bengaluru from 21st to 23rd October 2022. Over 231 under-13 participants from various schools and districts had participated in this event. Samanth won 5.5 points out of 9 classical rounds and secured the 4th place in the Under 9 category and won a trophy. He is the only under9 player to have played all the rounds against FIDE rated players and won. He has proved his talent time and again. We are extremely proud of Samanth's achievement. Congratulations and best wishes for his future endeavours.
